

# QUICK GUIDE

Connecting your PTT Smart Button to TangoTango (Android) (EN)

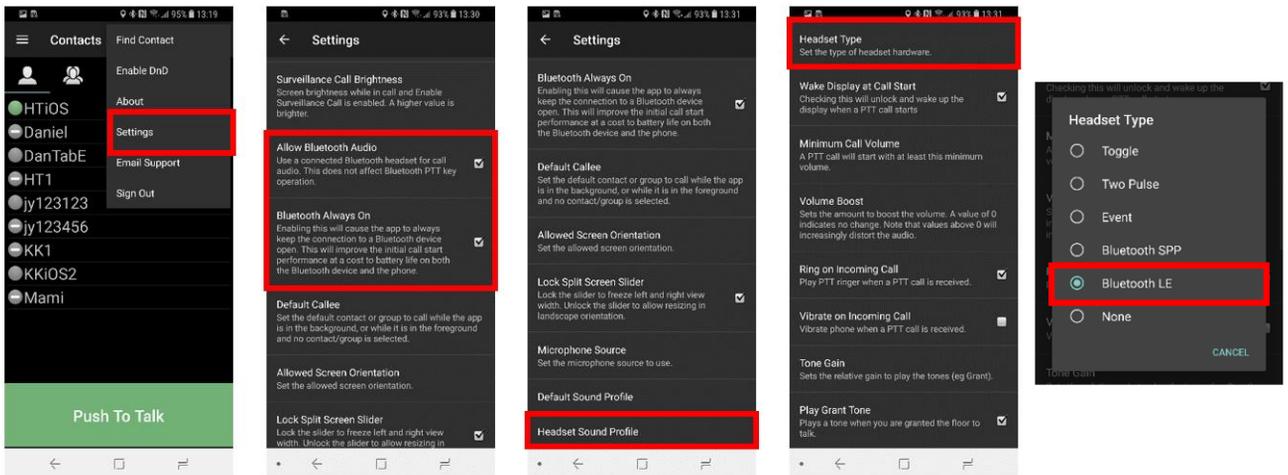

# A

## Pairing your PTT Smart Button to your phone and TangoTango

1. Go to your phone's Bluetooth settings and turn on Bluetooth.
2. Pressing all 3 buttons on the PTT Smart Button simultaneously.
3. Either selecting the device from the Bluetooth menu or using NFC pairing.
4. The PTT Smart Button will move from available devices to paired devices.

After your device is paired to your smartphone, follow the steps below:

1. In the TangoTango application, tap on the three vertical dots displayed on the top right corner and select 'Settings'.
2. Near the bottom of the list tick 'Allow Bluetooth Audio' and 'Bluetooth Always On'.
3. At the bottom of the list, select 'Headset Sound Profile'.
4. Then, 'Headset Type' from the top of the list that appears.
5. Select 'Bluetooth LE'.

For more information on how to use the TangoTango application please visit their website [tangotango.co](http://tangotango.co)

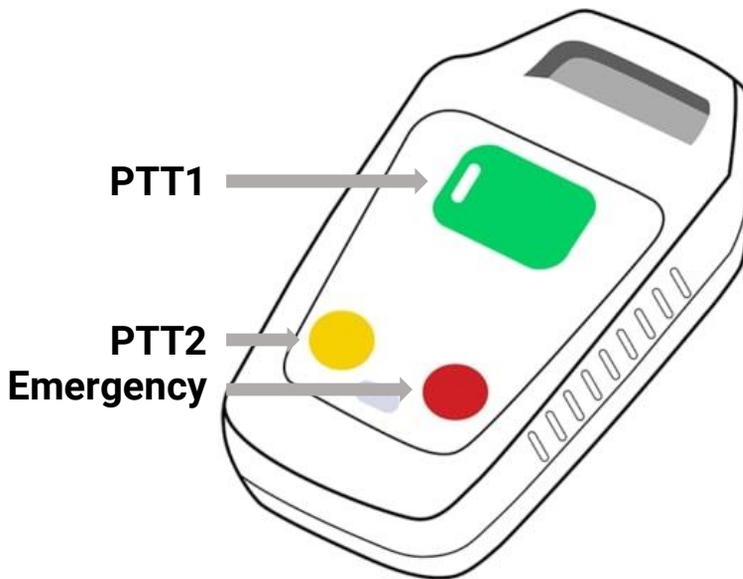

# B

## Main functions available

**PTT1 button** – Press and hold to speak to chosen contact/group. Release when you are done.

**Emergency button** – Press to send an emergency alarm. This feature must be configured by your administrator for your account before it will be available and visible in the app.
